

RMB GRADUATE PROGRAMME

Join the RMB Minds that Matter Graduate Programme

Every year RMB embarks on a search for the next generation of young talent to join the exclusive Minds that Matter Graduate Programme. Our aim is to attract individuals with a can-do mindset who see beyond the obvious and bring solutionist thinking to all they do.

At RMB, we create an environment where our people can thrive and become their best self. It's about helping them to grow, now and in the future. We support our people in building their careers through the many interactions with fellow colleagues and a wealth of learning and coaching opportunities. RMB aims to create a place where everyone feels they belong, are heard and can make a positive impact.

Our programme is designed to help graduates find their feet as they transition into true professionals. This year is no different.

Who should apply?

We look for students who push boundaries, are well rounded and have excelled in various aspects of their lives, from academics to culture and sport. If you have graduated with a postgraduate degree in Commerce, Science, Technology, Engineering and Mathematics, then RMB is for you.

Please note that the RMB Graduate Programme is based in Sandton Johannesburg and is open to South African citizens only. Should a student from elsewhere in Africa wish to apply for a graduate opportunity, they should explore similar opportunities on the [FNB careers website](#).

Application deadlines

2021 Applications
 OPEN – 02 March 2020
 CLOSE – 31 May 2020
